## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 12-25, 28-30, and 32-40 are allowed.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: The prior art, either singly or in combinations, fails to anticipate or render obvious the invention of claim 12 specifically wherein an RF source and a controller is arranged for varying the total power and the variable impedance arrangements so that for different distributions of electromagnetic fields generated by and supplied by the different windings to the plasma the current flowing in one of the windings remains substantially constant and the current in the remainder of the coil changes, each of the windings including first and second end terminals and each of the impedance arrangements including first and second variable capacitors, each of the first capacitors being connected in series with its respective first terminal for supplying RF energy from the RF source to the respective winding each of the second capacitor being connected in series between its respective second terminal and ground, the controller being arranged for varying the values of the first and second variable capacitors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
